PHCOG REV. consists of following Reviews Articles, Invited Articles, Clinical reports, Plant reviews, Review Articles, Short Reviews, General Articles.

*PHCOG REV.* welcome contributions and Review Articles that describe investigations, clinical reports, methods, techniques and applications of all forms related to medicinal plant research and that are of immediate interest to users in industry, academia, and government. All contribution to Phcog Rev are reviewed editorially with the understanding that they have not been published previously and are not under consideration for publication elsewhere. Author/s is/are responsible for all statements made in their work and obtaining necessary permission to republish any previously published illustrations and/or other relevant materials. All contributions and manuscripts are subjected to peer review (Editorial, Phcog Rev Volume 1 Issue 1) and copyediting process.

#### **Manuscript preparation**

Manuscripts must conform to the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" <http://www.icmje.org/>. Contributions and Manuscripts must be written in English and submitted exclusively to *PHCOG REV.* Manuscripts must be typewritten (double-spaced) with liberal margins and space at the top and bottom of the page. We highly encourage authors to submit manuscripts by e. mail (See submission); and contact the Assoc. editors for any necessary instructions/clarifications. Begin each of the following on a separate page: title page (including author's name, affiliations and address for correspondence), abstract (including at least 4 key words), text (consisting of introduction, discussion, conclusion and acknowledgements), references, figure legends, tables and figures. Titles should be short, specific, and clear. Beginning with the first page of text, number each page consecutively. If a manuscript is otherwise acceptable but the standard of English not

satisfactory, the editorial office will, with the agreement of the authors, perform technical editing of the manuscript. All experimental procedure followed must be approved by appropriate animal ethics committee.

#### **Tables**

*Tables should be presented on separate pages, Tables should have a short, one-line title in bold text. Symbols and abbreviations should be defined immediately below the table, followed by essential descriptive material as briefly as possible, in double-spaced text.*

#### **Figures/Photographs/Images**

Figures/Images should be submitted as photographic quality scanned prints, and if possible attach an electronic version (EPS/TIFF/JPEG/PPT). Any specific orientation should be indicated and a brief cover legend should be included. Submitted photo (micro) graphs should be reproducible without reduction. If not feasible, indicate the desired percentage reduction on the back of the figure. Indicate the orientation, figure number, and first author's name on the reverse of each figure using a soft pencil. Original Photographs/scanned (high quality: 300 pixels) should be sent along with the manuscript.

#### **References**

Literature citations in the text must be indicated by Arabic numerals in parentheses. Number each reference separately in the order it appears in the text. List cited references at the end of the manuscript in the order of their appearance in the text. Designate submitted articles as "in press" only if its formally accepted for publication. Use "unpublished work" otherwise, listing all author's involved. For personal communications, include name and date.
